Italy

Total government-backed credits outstanding as of end of 1973 was \$5.4 billion. It is probably less now because of a reduction of funding for export credit subsidies in 1974.

Outstanding from USSR -- \$300 million, end of 1974.

Not yet drawn by USSR -- \$700 million as of January 1975.

Italian government raised government insurance coverage on exports for 1975 from 700 billion lire to 1.4 billion lire (\$2.2 billion). It is estimated that \$1.1 billion will go for exports to the USSR.
